The first Waterford School in Utah, USA carried out extensive tests over a three-year period on the impact of computer-aided instruction on students in relation to test scores in math, reading comprehension and creative writing. The results were highly positive and launched an era of global computerization in schools.

Intraclient, Waterford's parent company, invented private learning centers in 1983.

Twenty five PhD's were employed by the World Institute for Computer-Aided Training to create systems which Intraclient and its affiliates were instrumental in bringing to the world. Renowned educationists and instructional designers such as Dr. Ken Olson and Dr. Fred O'Neal formed part of the team from which emerged the curriculum and software that has enhanced the performance of students globally.

Intraclient never wavered and has kept its focus on the original methods, to procure positive results in academic scores and critical thinking. Intraclient is proud that wherever our products have been used, students have gained a better understanding of core subjects, propelling them to good professions and jobs. Scores have always consistently improved.

The Waterford College of English Studies in Canada brings together all of our 21 years of expertise in education technology into the most advanced education delivery system in the world. Nearly 100 teachers and educationists across the American and Canadian Northwest have created an incomparable and proven English delivery system that increases the knowledge of English from zero-based levels to TOEFL in the shortest possible time.

Intraclient is a California-based information technology company with products covering enterprise software and education delivery systems such as ePenQuin's Wordplay, Playwrite and Path 2 Math.

Intraclient

Lessons are designed to improve listening comprehension and communication through speech

Unique to the Waterford method, film, lectures and computers are used to facilitate comprehension and practice.

Lessons are experienced in group interaction and participation.

Choose the Alberta, Canada Campus

Edmonton, the capital city of Alberta, is well known for its scenic river valley and numerous art and music festivals. It is also home to the world's largest shopping and entertainment centre, West Edmonton Mall. The Muttart Conservatory is noted for its architecture, as is the remarkable Alberta Legislature Building. Fort Edmonton Park is reputed to be Canada's largest living history museum.

Welcome to Alberta

Alberta's grandeur and beauty are obvious from the moment you arrive. Above all are Alberta's Rocky Mountains, including the world famous resorts of Banff, Jasper, Canmore, Kananaskis, Lake Louise and Waterton. Visit the vast farmlands of Alberta's Heartland, Southern Alberta and Northern Alberta. Calgary, home of the Calgary Stampede, is known for its warm hospitality.

Welcome to the world of English

Waterford College runs various computer-aided and teacher-based English Language centers globally for international students. We provide a highly effective selection of English instruction programs. Our programs are for short-term visitors and students who intend to pursue further studies in North America or elsewhere but need a grasp of English before they can proceed. We use computers, lectures and film to teach students with state-of-the-art materials.

Waterford courses have worked successfully worldwide in allowing students to move to other diploma courses and are the groundwork for TOEFL tests. All students go through the foundations of English and move rapidly towards reading comprehen-

sion and writing. Students move through six levels of curriculum starting from the Beginner Foundation Course. Homestay programs are operated jointly by professionals. Comprehensive recreation and cultural programs are designed so students can experience 'local' life. Waterford centers operate from various cities and are located close to prestigious downtown streets. Downtown locations are close to homestays, bus routes, shopping and tourist areas.

Canada and Waterford™

A land of vast distances and rich natural resources, economically and technologically the nation has developed in parallel with the U.S., its neighbor to the south across an unfortified border. The largest country in the world in a strategic location between Russia and the U.S., Canada's population is concentrated within 300 km of the U.S./Canada border. Canada is made up of 10 provinces and 3 territories* – Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Northwest Territories, Nova Scotia, Nunavut*, Ontario, Prince Edward Island, Quebec, Saskatchewan, Yukon Territory*.

Canadians place a premium on education and demand first-rate schools. Canada spends more per capita on its education system than any other country in the G-7 and is among the top 3 countries in the Organization for Economic Cooperation and Development (OECD). A degree from a Canadian university is recognized worldwide and as a result, international students who graduate from Canadian universities enjoy successful and prosperous careers.

Canada is home to one of the world's largest networks of national parks and protected areas. Whether you're on the high Arctic, Pacific or Atlantic coasts, crossing the Canadian Shield, traveling the Great Lakes, or riding the prairie foothills or mountains, you'll experience extraordinary nature and true wilderness.

Welcome to Waterford

Waterford College of English Studies is a Canadian Government PPSEC registrant.
